BA SERIES

# POWERFUL CORDLESS VACUUM

**A****D****B****E****C****I**

## Battery Vacuum Technology and Benefits:

### A) 240 Single Phase 30 AMPS - Volt Smart Charger

- Charges battery pack in 1 hour vs. current 4 hours
- Operate on both 50 or 60 cycle
- Up To 95% Efficiency
- Waterproof Design
- Shock Resistant for Storage and Operation
- Output Over Current Protection
- Output Short Circuit Protection
- Reverse Polarity Protection
- Charger Over Temperature Protection

### B) Superior Sound Suppression

- Silencer provides quiet operation while keeping motor cool during operation

### C) Powerful 48 Volt Motor Deck

- Battery Powered Dual Stage By Pass Motor Deck Assembly

### D) External Filter Cleaning Mechanism

- Clean the filter without disassembling your vacuum. Never come in contact with the dust!

### E) Industry leading MicroClean Filter

- 13 SQFT Primary filter – 99% Efficient @ 0.5 Microns – 3 Year Filter Guarantee!

### F) Carbon Impregnated “Bulletproof” Oval Composite Housing

- Indestructible, fully conductive and will never dent, crack or rust!

### G) Large Vacuum Inlet

- Large 2.75” inlet to handle bigger materials and more air flow

### H) Portable Design with low center of gravity

- Maneuver the vacuum without the risk of the vacuum tipping over

### I) 9 Gallon Collection Capacity – Removable Dustpan

- Materials collect into foot actuated Dustpan for easy waste disposal

### J) Battery Pack

- Awesome Long Life – Cycle Life @ 80% DOD > 7,000 times
- Easy to Charge
- Welded Prismatic Cell Connections
- Built in Battery Management System (voltage, current, temperature, and cell balance management)
- 100A Internal BMS
- Cell Voltage Protection
- Module Voltage Protection
- PCB Temperature Protection

\*\*Optional HEPA and ULPA filtration for air purification

\*Formerly the BA2110.
