

THE FINE DUST EXPERTS
 9 Gallon Dustpan

<p>150 CFM 120 Volt</p>	<p>R151</p> 
<p>200 CFM 210 CFM 120 Volt</p>	<p>R201</p>  <p>R210</p> 
<p>290 CFM 330 CFM 120 Volt</p>	<p>R291</p>  <p>R331</p> 
<p>300 CFM 350 CFM 240 Volt</p>	<p>R302</p>  <p>R352</p> 
<p>470 CFM 240 Volt</p>	<p>R472</p> 

The Red Line 9 Gallon Dustpan Style Vacuums are extremely compact and portable intermittent duty vacuums. When the vacuum is in operation, the materials move through the hose and hit a deflector at the vacuum inlet, forcing the materials around *Ruwac's* exclusive "oval housing". **This deflection prevents dust and particles from penetrating directly into the filter and significantly reduces the frequency of filter clogs.** Once the materials lose velocity, they fall down into the **9 Gallon foot actuated dustpan** which can be removed for disposal.
