F

Workhorse Vacuum Technology and Benefits:

A) Ruwac Exclusive Multi-Stage Maxflo Turbine

- Produces more suction using less horsepower
- Designed for continuous 24/7 operation
- Long lasting 15,000 hr run time with no maintenance required
- Superior Sound Suppression

B) Fully enclosed TEFC motor

- Rated for Class II Division 2 Groups F & G

C) Push Button Starter

- Thermal overload for automatic motor shutdown – temperature class 150°C
- Magnetic compact starter with IP65 enclosure and 30ft. power cable

D) MicroClean Filter with External Cleaning Mechanism

- 99% Efficient @ 0.5 Microns – 3 Year Filter Guarantee
- Clean the filter without disassembling your vacuum. Never come in contact with the dust!

E) Aluminum Cast Grounded Inlet

- Ground and bond your Ruwac's hoses and accessories

F) Direct Bagging Discharge

- Collect the dust directly in a plastic bag
- Gravity drop discharge automatically empties when vacuum is turned off
- Air tight gravity drop while vacuum is running

G) Portable design with low center of gravity

- Maneuver the vacuum without the risk of the vacuum tipping over

H) Carbon Impregnated "Bulletproof" Oval Composite Housing

- Indestructible, fully conductive and will never dent, crack or rust!
- Carbon Impregnated and fully grounded to protect against static build-up electrically insulating (10-6 OHMS resistance)

**Optional HEPA Maxx and ULPA filtration for air purification
