

REDLINE PORTABLE INTERMITTENT DUTY INDUSTRIAL HOUSEKEEPING SERIES

REDLINE Portable Vacuum Technology and Benefits:

A&B) Dual stage bypass motors (4)

- 470 CFM – powerful, runs cooler, and lasts longer

“Rapid Cool Technology”

- Advanced heat displacement prevents overheating of motors promoting longevity

Superior sound suppression

- Extremely quiet operation with Ruwac’s sound suppressing technology

C) External filter cleaning mechanism

- Clean filter without disassembling your vacuum.
Never come in contact with the dust!

D) Microclean primary filter

- Over sized 28 SQFT filter is 99% efficient @ 0.5 Microns

E) 2.75” vacuum inlet

- Large inlet for bigger materials and more air flow

F) 9 Gallon Dustpan

- Materials collect into foot actuated Dustpan for easy waste disposal

G) “Bulletproof” oval vacuum housing

- Compression cast composite that’s indestructible, will never dent, rust, or crack!
