

MXR331 FAQ'S

Are you in Compliance?

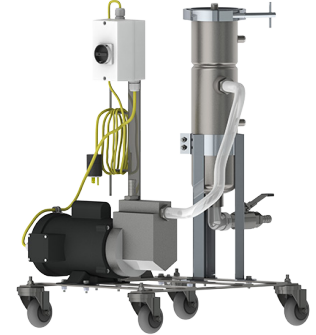

NFPA 484 2022 Edition Chapter 13 States

Disposal of Sludge from Water-Based Wet-Type Air-Material Separators.

- All sludge removed from wet-type AMS shall be removed daily at a minimum.
- Sludge should be disposed of in accordance with applicable federal, state and local requirements.
- Material removed shall be permitted to be mixed with an inert material (e.g. sand or material that is non-reactive with combustible metal) in a volume ratio of at least five parts inert to one part metal dust.
- Sludge level in sludge tank shall not exceed 5 percent of the tank liquid capacity as measured by volume.
- The maximum capacity shall not exceed 20 lb (9kg) of sludge.

FILTRATION SYSTEM EXTENDS THE SERVICE LIFE OF LIQUID ELIMINATING MAINTENANCE, DOWN TIME, AND WASTE

MXR FILTRATION SYSTEM

REMOVE THE SOLIDS AND RECYCLE THE LIQUIDS

- Reduce Maintenance Time and Frequency.
- Meet NFPA 484 Compliance by emptying daily.
- Create a cleaner and safer work environment.
- Eliminate hazardous waste costs.
