

Ruwac USA Introduces Compact Central Vacuum Systems

Ruwac's Compact Central Systems are a cost-effective solution for vacuuming combustible dust. With up to two operators, you can bring suction directly to your process area and remove the dust through a designed tubing system, built for your application. The best part is you can UNPLUG at any time and use your vacuum as a portable system!

Features & Benefits:

- **Engineered and manufactured in the USA.**
- **Minimizes the added expense of large central vacuum system installations.**
- **Provides localized collection of combustible dusts.**
- **NFPA and OSHA compliant** for the safe collection of combustible dust.
- **Under 8 cu. ft.** in internal area; doesn't require explosion venting.

Ruwac is a leading manufacturer of portable, central, and specialty industrial vacuum systems. Made in the USA, *Ruwac's* industrial vacuums are known for their reliability, innovative design, and superb filtration.
