**FOR IMMEDIATE RELEASE:**

**Ruwac USA Introduces MX Series: MXR Filtration System (MXR331)**

*Remove the solids and recycle the liquids*

**Holyoke, MA** – *Ruwac USA* is one of America's most innovative designers and manufacturers of technologically advanced, superior quality industrial vacuum systems for virtually all industrial applications, including, but not limited to: building maintenance, manufacturing processes, explosion proof safety, fume extraction, dust removal, machine tools, and more.

We have industry-leading filtration systems with innovative design and reliability. *Ruwac* equipment is suitable for various applications, including protecting workspaces from combustible dust, general housekeeping, and point of source extraction.

**The MXR331 Filtration System** extends the service life of liquid eliminating maintenance, down time, and waste.

---

**Additional Features & Benefits:**

- Designed specifically to connect to an MX360 Immersion Separator
- Cleans the sludge from the liquid bath and return clean liquids back to the MX360
- Run continuously after each shutdown for 30 mins and remove a minimum 95% of the solids from the liquid bath
- Low maintenance design with easy access to filters
- Filter Bag is easily removable with no tools
- Engineered Micro-Fiber Filter Bag is 95% efficient @ 1 Micron
- Extended life on the system
- Self-Priming, Self-Cleaning, and Semi-Open Impeller Pump
- Remove solids from the Liquid Bath so that the liquid can be used multiple times
- Allows you to use your liquids longer eliminating potential hazardous wastes

**MXR** FILTRATION SYSTEM  
REMOVE THE SOLIDS AND RECYCLE THE LIQUIDS

**The MXR331** is designed to clean the liquid tank of the **MX360 Series Vacuum**.
