WET & SLURRY VACUUMS

WHY RUWAC USA?

- MADE IN THE USA WITH THE HIGHEST QUALITY MATERIALS AVAILABLE ON THE MARKET
- BEST PRIMARY FILTER AND GUARANTEES IN THE INDUSTRY - REDUCE EXPENSIVE MAINTENANCE COSTS OF FILTER REPLACEMENTS
- ADVANCED OVAL DESIGN FOR IMPROVED CYCLONICS AND EXTENDED FILTER LIFE
- SPECIALIZE IN FINE / COMBUSTIBLE DUST WITH MULTIPLE LEVELS OF PROTECTION AVAILABLE
- APPLICATION EXPERTISE FROM OVER 250 YEARS COMBINED OF EXPERIENCE AND 36 YEARS IN BUSINESS RESULTING IN CUSTOM SOLUTIONS
- WE TAKE THE TIME TO UNDERSTAND YOU AND YOUR UNIQUE APPLICATIONS / MATERIALS
- FULL ENGINEERING SERVICES + CAPABILITIES
- WE LOVE TO COLLABORATE WITH OEMS
- CONTACT US FOR YOUR CUSTOM SOLUTIONS

INTERMITTENT DUTY

**VACUUMS FOR CONTRACTORS AND FOR
NON-COMBUSTIBLE MATERIALS**

• NON-COMBUSTIBLE MATERIALS • SUPERIOR FILTRATION • VARIETY MODELS

HEPA FILTRATION AVAILABLE

9 GALLON DUSTPAN

 **150 - 470 CFM**

Extremely compact and portable. Collect materials into a 9 gallon dustpan.

- 1, 2, 3, or 4 motors
- Removable dustpan allows for easy material disposal
- Accepts Ruwac's poly bag

DIRECT BAGGING

 **150 - 470 CFM**

Portable and dust free. Collect materials directly into a plastic bag.

- 1, 2, 3, or 4 motors
- Materials collect directly into a plastic bag for dustless emptying

30 GALLON SILO

 **200 - 350 CFM**

Stationary vacuum. Collect materials directly into 30 gallon drum.

- 2 or 3 motors
- Larger collection capacity

XLT-SYSTEMS

 **290 - 470 CFM**

Portable Vacuum and Pre-separator, all on one chasis!

- 3 or 4 motor options
- Onboard Cyclone System Collects 95% of materials in a 30 gallon drum
- Vacuum longer with less maintenance

**PAIR YOUR VACUUM WITH A 32" FLOOR SWEEP
TO REDUCE CLEANUP TIMES AND INCREASE PRODUCTION!**

• WATER • SLURRY • SUMP EXTRACTORS • VAC & PUMP SIMULTANEOUSLY

FLOOD PRO

 **110 CFM**

20 GALLON CAPACITY

Perfect cleanup during and after a flood.

- Flood Extraction
- Restoration
- 32" Floor Tool

SLURRY PRO

 **200 CFM**

32 GALLON CAPACITY

Slurry maintenance simplified.

- Designed for Concrete Slurry
- Onboard Slurry Pump
- 42" Floor Tool

SLURRY PRO JR

 **110 CFM**

20 GALLON CAPACITY

Our most compact slurry solution.

- Designed for Concrete Slurry
- Onboard Sump Pump
- 32" Floor Tool

SUMP PRO

VACUUM & PUMP
SLURRY AND WET COLLECTION

Ruwac's Wet Vac Series has various options to meet your liquid collection capacity needs and application requirements.

- 8 - 32 Gallon Liquid Capacity options
- Onboard Discharge Pump
- Vacuum and pump simultaneously
- "Bulletproof" Compression Cast Composite Housing
- Will NEVER dent, rust, crack, or go out of round
- Powerful motors for effective liquid collection

H8G

 **110 CFM**

8 GALLON CAPACITY

- 1.5" Pump Discharge
- 8" Bottom Solids Discharge

H20G

 **110 CFM**

20 GALLON CAPACITY

- Garden Hose Pump Discharge
- Internal Filter Bag for Solids

H30G

 **110 CFM**

30 GALLON CAPACITY

- 1.5" Pump Discharge
- 8" Bottom Solids Discharge

H32G

 **200 CFM**

32 GALLON CAPACITY

- 1.5" Pump Discharge
- Internal Filter Bag for Solids

C

ONDUCTIVE SERIES

GROUND & BONDED

VACUUMS FOR USE IN ORDINARY LOCATIONS

• EXPLOSION PROOF • DUSTPAN REMOVAL • BAGGER VACUUMS • HEPA FILTRATION

9 GALLON DUSTPAN

 **150 CFM**

Extremely compact and portable. Collect materials into a 9 gallon dustpan.

- 1.5 Hp
- Ideal for 10' hose lengths
- Accepts Ruwac's poly bag

9 GALLON DUSTPAN

 **200 CFM**

Extremely compact and portable. Collect materials into a 9 gallon dustpan.

- 3 Hp
- Ideal for 25' hose lengths
- Pair w/ 32" Floor Sweep
- Accepts Ruwac's poly bag

DIRECT BAGGER

 **200 CFM**

Dust free collection and emptying.

- Dustless emptying of materials
- Ideal for 25' hose lengths
- Accepts Ruwac's poly bag

C

ONDUCTIVE SERIES

GROUND & BONDED

VACUUMS FOR USE IN ORDINARY LOCATIONS

Ordinary Locations, Unclassified Atmosphere

- Trace amounts of combustible dust
- Rare occasional small spills
- Combustible dust is highly diluted with non-combustible dust
- No visible dust or chance of airborne dust present

NFPA Compliant for the collection of Combustible Dust in a non-hazardous environment.

CONDUCTIVE SERIES VACUUM TECHNOLOGY AND BENEFITS:

Fan and Blower are protected from dust laden air

- HEPA filter protects the vacuum motor and fan

Carbon Impregnated "Bulletproof" Oval Composite Housing

- Indestructible, fully conductive and will never dent, crack, or rust

External Filter Cleaning Mechanism

- Clean the filter without disassembling your vacuum. Never come in contact with the dust!

Industry Leading MicroClean Filter

- 99% Efficient @ 0.5 Microns - 3 Year Filter Guarantee

Hoses and Accessories are fully grounded

- Conductive and Static Dissipating

HEPA FILTRATION AVAILABLE

WORKHORSE

CONTINUOUS DUTY

A VARIETY OF VACUUMS FOR THE
SAFE COLLECTION OF ULTRA FINE DUSTS

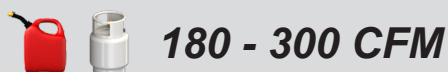

- ALTERNATIVE POWER • DUSTPAN • BAGGER VACS • SILOS
- AIR + ELECTRIC (CII,D2) • CERTIFIED EXPLOSION PROOF MODELS

HEPA FILTRATION AVAILABLE

NON-EXPLOSION PROOF

DUSTPAN OR BAGGER

180 - 300 CFM

Alternative Power designed for outdoor applications where electricity is not available.

- Gas or Propane
- 9 Gallon Dustpan or Direct Bagging Models Available

30 GALLON SILO

150 - 300 CFM

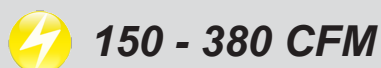

Stationary vacuum. Collect materials into 30 gallon drum.

- Single and Three Phase
- Central Collection System

CLASS II, DIVISION 2

9 GALLON DUSTPAN

150 - 380 CFM

Extremely compact and Portable. Equipped with 9 gallon dustpan.

- Single and Three-Phase Options
- Regenerative Motors Available
- 1.5 - 10 Hp
- Accepts Ruwac's poly bag

QUIET VACUUM

180 - 300 CFM

Exclusive Rapid Cool Silencer.

- Reduces noise under 70dB
- Inclusive air chamber dampers for maximum air flow
- Thermally protected with auto-shutoff

9 GALLON DUSTPAN

DIRECT BAGGING

150 - 300 CFM

Dust free collection and emptying.

- Single and Three Phase
- Dustless emptying of materials

DUST COLLECTOR

460 CFM

Powerful 460 CFM Dust Collection System.

- 4" Inlet
- Direct Drive Vacuum Producer

9 GALLON DUSTPAN

POWERHOUSE

CONTINUOUS DUTY
FOR SAFE COLLECTION OF COMBUSTIBLE MATERIALS

- ALTERNATIVE POWER • 24 GALLON DUSTPAN • BAGGER VACS • SILOS
- ELECTRIC (CII,D2) • CERTIFIED EXPLOSION PROOF MODELS • CENTRAL

HEPA FILTRATION AVAILABLE

NON-EXPLOSION PROOF

DUSTPAN OR BAGGER

630 CFM

Alternative Power designed for outdoor applications where electricity is not available.

- Gas or Propane
- 24 Gallon Dustpan or Direct Bagging Models Available

SILO

150 - 500 CFM

Stationary vacuum. Collect materials into 55 gallon drum.

- 150 - 300 CFM options
- Single and Three Phase
- Central Collection System

DIRECT BAGGING

150 - 500 CFM

Dust free collection and emptying.

- 150 - 300 CFM options
- Single and Three Phase

CLASS II, DIVISION 2

Ruwac recognizes the seriousness of the potential deadly hazard found in combustible dust, and offers a complete line of electric powered explosion proof vacuum systems for **Class II, Division 2** Environments. Featuring fully grounded, static dissipating designs that are guaranteed to be sparkfree, **Ruwac's C2D2** industrial vacuum cleaners are made in the USA from the highest quality materials that can be custom built to your needs.

POWERHOUSE REGEN
CONTINUOUS DUTY
CLASS II DIVISION 2 LARGE INDUSTRIAL SERIES

150 - 560 CFM

POWERHOUSE PORTABLE
CONTINUOUS DUTY
CLASS II DIVISION 2 LARGE INDUSTRIAL SERIES

150 - 500 CFM

Portable with large 24 gallon removable dustpan.

- Single or Three Phase Options
- Under 8 cubic feet Internal Volume
- 1.5 - 15 Hp

Can be used as a Compact Central System!

Certified Explosion Proof Series

WORKHORSE EX
CONTINUOUS DUTY
CERTIFIED EXPLOSION PROOF SERIES

POWERHOUSE EX
CONTINUOUS DUTY
CERTIFIED EXPLOSION PROOF LARGE INDUSTRIAL SERIES

- AIR + ELECTRIC (CII,D2) • CERTIFIED EXPLOSION PROOF MODELS

HEPA FILTRATION AVAILABLE

WORKHORSE EX

 **150 - 300 CFM**
9 GALLON DUSTPAN
NFPA 652+654
compliant

- Ruwac Exclusive Multi-Stage Maxflo Turbine
- Fully enclosed Explosion Proof TEFC motor
- Explosion Proof Enclosure
- MicroClean Filter with External Cleaning Mechanism
- Cast Anti-Static and Grounded Deflector
- 9 Gallon Collection Capacity - Removable Dustpan
- Portable design with low center of gravity
- Carbon Impregnated "Bulletproof" Oval Composite Housing

***Accepts Ruwac's poly bag*

POWERHOUSE EX

 **150 - 500 CFM**
24 GALLON DUSTPAN
NFPA 652+654
compliant

- For Larger Amounts of Combustible Dust
- Compact Central Systems
- Multi-User Systems
- Under 8 cubic feet Internal Volume

CLASS II, DIVISION 1, GROUP F & G

- If your atmosphere is rated for either Class I, Class II, Division 1
- Large amounts of dust always present
- Occasional large spills
- Pure combustible dust or dust with higher Kst
- Visible dust is present and airborne dust is present

ETL Certified to UL and CSA Standards.

- Single and Three Phase
- Air Powered Options

Ruwac USA is proud to manufacture **Workhorse EX** and **Powerhouse EX** Series - Explosion-Proof, electric powered vacuums made in the USA.

Ruwac's EX Series has become the vacuum of choice for combustible dust everywhere due to exceptional cleaning power, durability, safety, filtration, and reliability.

MX IMMERSION

GROUP "E" METALS

FOR HIGHLY COMBUSTIBLE MATERIALS COMPLETELY
SUBMERGE 100% OF MATERIALS INTO A LIQUID BATH

- GROUP "E" METALS • IMMERSION SEPARATOR • RECLAIM MATERIALS
- C2D2 OR CERTIFIED EXPLOSION PROOF • EASY MAINTENANCE + CLEANING

HEPA FILTRATION AVAILABLE

CLASS II, DIVISION 2

GROUPS F AND G

 **150 - 300 CFM**

Portable with 12 gallon collection capacity.

- Single or Three Phase Options
- 1.5 - 3 Hp

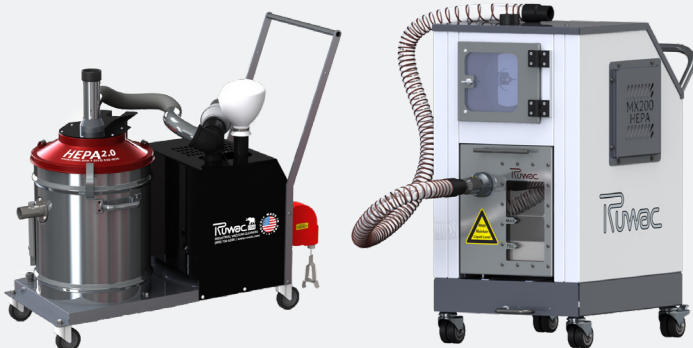

GROUPS F AND G (COMPACT)

 **100 - 180 CFM**

Compact Immersion Separators. Designed for small scale additive manufacturing applications.

- Single or Three Phase Options
- 2.6 Gallon or 5 Gallon
- 1.5 - 3 Hp

CERTIFIED EXPLOSION PROOF

GROUP E METALS

  **150 - 180 CFM**

Portable with 12 gallon collection capacity.
Certified Explosion Proof Vacuum System.

- Single or Three Phase Options
- 1.5 - 3 Hp
- Air Powered Options

Safely Collect:

- Aluminum
- Titanium
- Magnesium
- Zirconium
- Mixed metals
- Sodium azides
- TNT + high explosives
- Other volatile dusts

**NFPA 484
compliant**

RECLAIM AND REUSE EXPENSIVE MATERIALS WITH THE ONBOARD RECLAIM SYSTEM

CENTRAL VACS

CUSTOM COLLECTION SOLUTIONS
**REDEFINE YOUR PROCESS AND BRING
 POWERFUL SUCTION WHEREVER YOU NEED IT**

- TRADITIONAL CENTRAL SYSTEMS • COMPACT CENTRALS • SILO • NFPA COMPLIANT SYSTEMS
- HIGH SUCTION • SUPERIOR FILTRATION • LARGE COLLECTION CAPACITY • RECLAIM MATERIALS

HEPA FILTRATION AVAILABLE

NFPA COMPLIANT TRADITIONAL CENTRAL VACUUMS

SINGLE AND MULTI-OPERATOR CUSTOM CENTRAL SYSTEMS

Up to 1150 CFM

- Plantwide housekeeping with multiple operators
- Use to reclaim valuable materials for reuse
- Quick return on investment
- NFPA Compliant safe collection of combustible dust
- Collect materials into drums, bins or “super sacks”
- Oversized 225 sq.ft. specialized pleated vertical filter cartridges
- Available with full remote starter for additional control
- Custom solution designed for your facility

CALL FOR TUBING AND FITTINGS

FA3100 Central Vacuum System

Experience extreme filtration with the **FA3100**. Equipped with reverse pulse filter cleaning technology, this vacuum system was specially engineered to collect and contain large quantities of fine dusts in central vacuum systems.

COMPACT CENTRAL

300 - 600 CFM **NFPA COMPLIANT**

A central vacuum system that can disconnect and be used as a portable vacuum.

- A powerful portable vacuum paired with tubing and fittings.
- Continuous duty vacuum - run 24/7
- Pair with HEC-XLT for additional collection capacity.
- Disconnect from tubing & use it as a portable vacuum!

A “COMPACT CENTRAL
 SYSTEM” COULD
**SAVE YOU THOUSANDS
 OF DOLLARS!**

STATIONARY CE SERIES

CE15: 150 - 600 CFM

High Efficiency Cyclone

- Compact stationary design
- 95% efficient with sub-micron particles
- Heavy Duty AR Steel with Powder Coated finish
- Typically combined with a vacuum system to continuously collect and simultaneously discharge materials

SPECIALTY VACUUMS

CONTINUOUS DUTY
FOR SAFE COLLECTION OF COMBUSTIBLE MATERIALS

• PRE-SEPARATORS • STATIONARY CE SERIES • HEC SERIES • BATTERY POWERED

HEC SERIES

 **100 - 525 CFM**

High Efficiency Cyclone

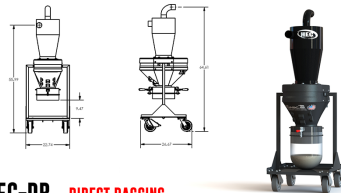

The HEC-Series by Ruwac are 4 different **High Efficiency Cyclone** configurations that will simultaneously increase your vacuum's collection capacity, increase your filtration and filter life while simplifying dust management and disposal. The HEC's can be paired with any vacuum and will eliminate clogged filters by separating 95% of ultra fine dust prior to entering the vacuum system.

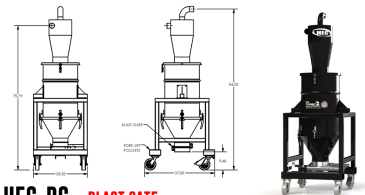

HEC-S

HEC-XLT **EQUALIZE - LIFT - TIP**

HEC-DB **DIRECT BAGGING**

HEC-BG **BLAST GATE**

PORTABLE RECLAIM SYSTEM

Manufacturing solution to expensive material waste. Never throw away expensive materials again. Designed especially for reclaim and reuse of Combustible Group E, F, and G Fine Dust.

- Discharge Settling Chamber

COMPACT-VAC

 **50 - 220 CFM**

CV SERIES

The **Compact-Vac** by Ruwac offers continuous duty operation ideal for point of source extraction and highly efficient filtered separation that makes removing fine dust particles easier than ever!

Applications:

- Point of Source Extraction
- Small Footprint Areas
- Manufacturing / Assembly Work
- Continuous Duty Operation

BATTERY POWERED

 **210 CFM**

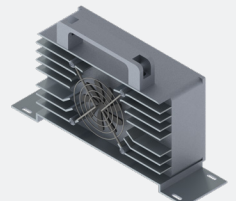

BA SERIES
POWERFUL
CORDLESS VACUUM

BA2110

The BA2110 by Ruwac takes portability to a whole new level through battery powered operation. As part of **Ruwac's Alternative Power Series**, the BA2110 is engineered to provide vacuum power where electricity isn't an option.
