FOR IMMEDIATE RELEASE:

Ruwac USA Introduces Slurry Pro Series: The Slurry Pro Jr.
Vacuum & Pump – Slurry Management Solution

Holyoke, MA – *Ruwac USA* is one of America's most innovative designers and manufacturers of technologically advanced, superior quality industrial vacuum systems for virtually all industrial applications, including, but not limited to: building maintenance, manufacturing processes, explosion proof safety, fume extraction, dust removal, machine tools, and more.

We have industry-leading filtration systems with innovative design and reliability. *Ruwac* equipment is suitable for various applications, including protecting workspaces from combustible dust, industrial housekeeping, and point of source extraction.

The Slurry Pro Jr industrial vacuum by *Ruwac* is the newest slurry management solution for contractors focusing on smaller projects. The little brother to the original Slurry Pro, the goal was to design a vacuum system that simplifies slurry maintenance to allow contractors to increase their production rates and get the job done quicker in a smaller and more portable platform.

Additional Features & Benefits:

- Externally mounted 110-volt vacuum motor, single 120V @ 12-amp power source, 110 CFM @ 107" of H2O.
- 32" front mounted squeegee attachment for Wide Area Recovery.
- 38 GPM Return Pump allows you to vacuum and pump at the same time without ever having to stop. Includes a 1.5" discharge hose with a cam-lock.
- Spacious 20-gallon liquid capacity with a 2" bottom discharge for easy cleanout and maintenance.
- 10" Solid rear tires and front locking swivel casters for easy portability.

Made in the USA.
